

lua\_setlocal

```
graph LR; A[lua_setlocal] --> B[luaG_findlocal]; B --> C[luaF_getlocalname];
```

A flowchart illustrating a sequence of three Lua functions. The first function, 'lua\_setlocal', is highlighted with a gray background. A blue arrow points from it to the second function, 'luaG\_findlocal', which has a white background. Another blue arrow points from the second function to the third function, 'luaF\_getlocalname', also with a white background. All three functions are contained within rectangular boxes with dark gray borders.

luaG\_findlocal

luaF\_getlocalname
