The diagram illustrates the relationship between three classes. At the bottom is a grey box representing the class `WinUIGallery.ControlPages.CaptureElementPreviewPage`. Two blue arrows originate from this box: one points diagonally up and to the left to a white box labeled `Page`, and the other points diagonally up and to the right to a white box labeled `INotifyPropertyChanged`. This indicates that `CaptureElementPreviewPage` inherits from `Page` and implements the `INotifyPropertyChanged` interface.
