

luaL_loadbufferx

luaL_loadfilex

lua_load

```
graph LR; A[luaL_loadbufferx] --> C[lua_load]; B[luaL_loadfilex] --> C;
```

The diagram illustrates the relationship between three Lua C API functions. On the left, two white rectangular boxes with black borders are stacked vertically. The top box contains the text 'luaL_loadbufferx' and the bottom box contains 'luaL_loadfilex'. On the right, there is a gray rectangular box with a black border containing the text 'lua_load'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'luaL_loadbufferx' and 'luaL_loadfilex' are wrappers or related to the 'lua_load' function.
